Part 2: Active voice & passive voice

“ACTIVE VIOCE & PASSIVE VIOCE”

1: ACTIVE VOICE

Definition: When the doer of work is the subject of a sentence is Called active voice.

Or A form of verb which tells us that the subject is the performer of the action is called active voice.

Formula: Subject + is, am, are + 1st-verb_ing + object.

2: PASSIVE VOICE

or when the effected person place or thing is the subject of a sentence.

Formula: Subject + is, am, are + 3rd-verb + by + object.

Example: cricket is played by her.

Question: Why we use passive voice.

Answer: when we want to give more information to the object of active voice we use passive voice.

Basic rules of changing active voice in to passive

- Subject change in to object.
- Object change in to subject.
- 3rd-verb is use in place of 1st-verb or 2nd-verb.
- Helping verb is use before 3rd-verb according to the tenses.
- (BY) is use after 3rd-verb to introduce the agent.
- Use of Passive
- Passive voice is used when the focus is on the action. It is not important or not known, however, who or what is performing the action.
- Example: My bike was stolen.
- In the example above, the focus is on the fact that my bike was stolen. I do not know, however, who did it.
- Sometimes a statement in passive is more polite than active voice, as the following example shows:
- Example: A mistake was made.
- In this case, I focus on the fact that a mistake was made, but I do not blame anyone (e.g. you have made a mistake.).⁵

Part 3: Direct and Indirect speech

Indirect Speech / Reported Speech

Indirect speech (sometimes called reported speech), doesn't use quotation marks to enclose what the person said and it doesn't have to be word for word.

When reporting speech the tense usually changes. This is because when we use reported speech, we are usually talking about a time in the past (because obviously the person who spoke originally spoke in the past). The verbs therefore usually have to be in the past too.

For example:

Direct speech

"I'm going to the cinema", he said.

Indirect speech

He said he was going to the cinema.

د direct څخه indirect ته ۱۲ زماني په لاندې توګه تبدیلیږي

As a rule when you report something someone has said you go back a tense: (the tense on the left changes to the tense on the right):

Direct speech

Present simple

She said, "It's cold."

Present continuous

She said, "I'm teaching English online."

Present perfect

She said, "I've been on the web since 1999."

Present perfect continuous

She said, "I've been teaching English for seven years."

Past simple

Asmat said, "I taught online yesterday."

Past continuous

Modal verb forms also sometimes change:

She said, "I must have a computer to teach English online."

shall

Indirect speech

She asked what we should learn today.

!Note - There is no change to; could, would, should, might and ought to.

Time change

If the reported sentence contains an expression of time, you must change it to fit in with the time of reporting.

For example we need to change words like here and yesterday if they have different meanings at the time and place of reporting.

<u>Today</u>	<u>+ 24 hours - Indirect speech</u>
"Today's lesson is on presentations."	She said yesterday's lesson was on presentations.

Expressions of time if reported on a different day

(a week) ago	›	(a week) before
last weekend	›	the weekend before last / the previous weekend
here	›	there
next (week)	›	the following (week)
tomorrow	›	the next/following day

In addition if you report something that someone said in a different place to where you heard it you must change the place (here) to the place (there).

For example:-

At work

"How long have you worked **here**?"

At home

She asked me how long I'd worked **there**.
